

# IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Monitoring Requirements Not Met for City of Dallas

Our water system violated a drinking water requirement. Even though this was not an emergency, as our customers, you have a right to know what happened and what we are doing to correct these situations.

*\*We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During the compliance period of 01/01/2011 to 02/28/2011 we did not complete all monitoring or testing for Total Coliform and therefore cannot be sure of the quality of your drinking water during that time.\**

## What should I do?

There is nothing you need to do at this time.

## What is being done?

---

We have since taken the required samples. The samples show we are meeting the drinking water standards
